Maximum Marks	4 marks

Brainstorm & Idea Prioritization :

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

🕐 10 minutes to prepare
⧗ 1 hour to collaborate
👤 2-4 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕐 10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement
What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕐 5 minutes

How to track?

Key rules of brainstorming
To run an smooth and productive session

Stay in topic.   Encourage wild ideas.

Defer judgment.   Listen to others.

Go for volume.   If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

② Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕐 10 minutes

Sowmiya Devi G

- Analyse the week wise performance and find the day where the user spent more.
- Notify when the user exceeds the budget
- Seperate our daily expense category wise

Jose Ezhilarasi B

- Seperate our daily expense rupees wise

Renugha S

- If you forget to categorize the daily or monthly expense we will notify to categorize it
- In case user 1 is busy user 2 can login to the account

Priscilla G

- Fix the limit of the expense daily and if it exceeds, alert message will be given
- When we spent within the limit, scratch card will be provided

- Include the transaction facility
- When transaction is completed successfully scratch card will be provided
- seperate the expenses into daily, monthly and yearly
- price tag should be captured and should be analized and intimated
- Analyse the month wise performance
- Transaction history will be shown
- User can customize their app
- User can view the expense either in the form of barchart or piechart

- Notify if the user exceeds the budget during the occasion time.
- For business men/ women income may vary so ,budget will be fixed according to the income .
- Find the specific area where the user spend more
- Find the specific item where the user spent more
- Transaction history can be shared or taken print out
- It promises to find and cancel unused subscriptions that are tied to your financial accounts
- Two users can login into the same account
- Should notify the user about the offers in nearby location

③ Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

🕐 20 minutes

Notify
- Notify when the user exceeds the budget
- Notify if the user exceeds the budget during the occasion time.
- If you forget to categorize the daily or monthly expense we will notify to categorize it
- Fix the limit of the expense daily and if it exceeds, alert message will be given

Transaction
- Include the transaction facility
- Transaction history can be shared or taken print out
- Transaction history will be shown
- When transaction is completed successfully scratch card will be provided
- User can view the expense either in the form of barchart or piechart

Budget
- For business men/ women income may vary so ,budget will be fixed according to the income .

Analyse
- Analyse the week wise performance and find the day where the user spent more.
- Analyse the month wise performance

Categories
- Seperate our daily expense category wise
- Seperate our daily expense rupees wise
- seperate the expenses into daily, monthly and yearly

user spending
- Find the area where the user spend more
- Find the specific item where the user spent more
- User can customize theire app
- User can view the expense either in the form of barchart or piechart

Uploading
- price tag should be captured and uploaded

Login
- In case user 1 is busy user 2 can login to the account
- If 2 user login at same time crash may occur
- Two users can login into the same account

Subscription
- It promises to find and cancel unused subscriptions that are tied to your financial accounts

Step-3: Idea Prioritization

Importance
If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Sticky notes on grid:
- Seperate our daily expense category wiise
- When transaction is completed successfully scratch card will be provided
- User can view the expense either in the form of barchart or piechart
- Transaction history will be shown
- Find the area where the user spend more
- Price tag shouldbe captured and should be analzed
- It promises to find and cancel unused subscriptions that are tied to your financial accounts
- For business men / women income may vary so ,budget will be fixed according to the income .
- Seperate our daily expense rupees wise
- Include the transaction facility
- Should notify the user about the offers in nearby location
- Transaction history can be shared or taken print out
- Notify if the user exceeds the budget during the occassion time.
- Analyse the week wise performance and find the day where the user spent more.
- In case user 1 is busy user 2 can login to the account
- Analyse the month wise performance
- seperate the expenses into daily,monthly and yearly
- Notify if the user exceeds the budget during the occassion time.
- price tag should be captured and uploaded
- If 2 user login at same time crash may occur
- User can view the expense either in the form of barchart or piechart
- Notify if the user exceeds the budget during the occassion time.
- Find the specific item where the user spent more
- Two users can login into the same account

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the H key on the keyboard.

Quick add-ons

A **Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

B **Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward
